

INSTALLATION GUIDE

WARP Acid Bass Rack

To install, simply drag and drop the ADG file into Ableton Live.

The Rack Instrument will then be available in the User Library:

...Presets / Instruments / Instrument Rack

Ableton Live Suite (version 11.3.43 or later) is required to use the rack.

MACRO CONTROLS

GLIDE - Classic acid-style portamento between notes.

SAW TO SQUARE - Morphs between sawtooth and pulse waveform.

SUB OSC - Adds a sub-oscillator for more low-end.

FILTER CUTOFF - Sets the cutoff frequency of the low-pass filter.

FILTER RESO - Controls the resonance intensity at the cutoff frequency.

FILTER DRIVE - Adds saturation inside the filter stage for more grit.

FILTER MOD - Adjusts the modulation amount of the filter envelope.

FILTER DECAY - Controls the decay time of the filter envelope.

REDUX MIX - Adds digital grit by blending in the bitcrusher.

SHAPER MODE - Selects between six different saturation types.

SHAPER MIX - Controls the amount of saturation applied to the signal.

EQ LOW / MID / HIGH - Three-band EQ to boost or attenuate low, mid, and high frequencies.

DELAY MIX - Controls the amount of delay effect.

REVERB MIX - Controls the amount of reverb effect.
